Stay-at-Home Mom

### Why did you use Consumer Legal Funding?

I was involved in a car accident in which I was rear ended by an 18-year-old who was texting and driving. It caused severe back and neck problems. I had to drop out of college because of the pain. I couldn't sit in a chair for over an hour. One year and four months later, I still needed epidural injections and possibly surgery. It was horrible. My daughter has cerebral palsy and receives Social Security. That and child support from my ex-husband are my only sources of income. I am currently in a lawsuit to recoup my medical expenses and I continue to struggle to pay for bills, groceries, and gas.

### How did Consumer Legal Funding help?

The Consumer Legal Funding I received helped to alleviate the burden. It helped to pay for my bills and being able to buy groceries for my two children. The best thing is that the Legal Funding Company never forgets about you. They always call you back within one or two days and make sure you get what you need ASAP. They are very caring and understand what you are going through.

### What would have happened if Consumer Legal Funding was not available to you?

I had nothing to give to my children. Consumer Legal Funding changed that for me.
