Why did you use Consumer Legal Funding?

I was on the way to Aldi when a man drove into my car. A police officer saw the whole thing. I suffered back and leg injuries, including a blood clot. The medical bills were huge, the other driver was uncooperative, and his insurance company moved very slowly. I even had to pay the deductible to have my car fixed. I struggled for months to keep up with my bills and could not. I was about to lose my electricity and my car insurance. I was running out of money for the rent, and even to buy food. When I learned about Consumer Legal Funding, I decided to try it. Thank God it was available to me.

How did Consumer Legal Funding help?

When I received Consumer Legal Funding, I was so grateful that I cried. I had been feeling like I was in a rabbit hole, constantly going down and down and not knowing where to turn. Legal Funding helped me get myself out of that hole.

What would have happened if Consumer Legal Funding was not available to you?

I would have had no car and no electricity, which would impact my ability to cook because my stove is electric. I would have soon been evicted. I am very, very grateful that Legal Funding helped me avoid all that.
