Medical Assistant

Why did you use Consumer Legal Funding?

I was rear-ended by another driver and my back was badly hurt. I needed surgery and had to miss work as I recovered. But the bills kept coming and I had no way to keep up with them without my paycheck. I have three young children, and two of them have autism. I live and breathe to provide for them, teach them, and give them a good life. But I just didn't have enough money as I waited the incredibly long amount of time it takes for an insurance settlement. We were about to be evicted from our home. It was a very stressful situation.

How did Consumer Legal Funding help?

Consumer Legal Funding saved me and my children from being evicted from our home. It enabled me to pay the rent and keep our gas, water and electricity on. Working with the Legal Funding company was easy. The customer service was excellent. The company was great overall. My financial and emotional stresses were both relieved.

What would have happened if Consumer Legal Funding was not available to you?

My children and I would have had our utilities cut off and we would have been evicted. Unable to provide for my children, I would have lost custody of them. Consumer Legal Funding saved us from all that.
