Why did you use Consumer Legal Funding?

On a Sunday morning, I was driving to church with my wife and two daughters when another driver slid through a stop sign and smashed into us. Thank goodness, my wife and daughters were okay. But my knee was hurt badly. The insurance company for the driver who caused the crash offered me \$250 for my injuries. That's when I realized I needed an attorney to get a fair settlement.

I have a good job at a hospital and pay my bills on time. But it's impossible to be prepared for the financial strain that comes with missing work and having medical bills pour in. We fell behind on the rent, the electricity bill, the phone and water bills. Everything was about to be shut off. My wife looked at me and said "What are we going to do?" To tell you the truth, I was worried too.

How did Consumer Legal Funding help?

Consumer Legal Funding helped me catch up on the bills and keep things going. Man, it was a big relief.

What would have happened if Consumer Legal Funding was not available to you?

If we wouldn't have gotten that help, I just don't know what would have happened to us. It would've been rough. I get emotional thinking about it. What I don't understand is how people can try to stop somebody from helping people. Consumer Legal Funding helps people. Why would anyone want to take it away? This service needs to be available for other people to use if and when they need it.
